04

Clients learn to relish a **competitive edge** in every sector

05

The **flexibility to adapt instantaneous adjustments** to meet current market demands

OUR SERVICES

Valiant Technologies provides one-stop integrated services for businesses. Our services are divided into four main fragments.

MANAGED IT SERVICES

Managed Services basically means we become your IT department. We can oversee all or part of your organization's technology including maintenance and monitoring. We take care of the hassles and headaches of IT, so you can take care of your customers and grow your business. Some of our Managed Services includes but not limited to:

- CIO-as-a-Service
- IT Support & Help Desk Outsourcing
- Dedicated Hosting Services
- Workstation & Server Management
- IT Staff Augmentation
- IT System Implementation & Migration

MANAGED IT SERVICES

Why Customers Need our Managed Services?

Customers should choose for not the service we provide but for the unique solutions they require more often, which include but not limited to

- When it is required to hire an experienced and knowledgeable IT team for a fraction of the cost
- IT challenges that affects businesses and bottom lines
- Vendor Management
- Existing IT resource is inadequate due to growing business needs
- Little or no IT staff to handle resources

ON-DEMAND IT SERVICES

Businesses face challenges that are often unique depending on the type of operation they are involved in. We, at Valiant Technologies, believe every problem is unique, thus its solution is, as well. On Demand Service is a type of service that matches their goals and make IT system work based on the solution that is perfect for that business only.

HARDWARE SOLUTION

Currently, we are providing enterprise-grade hardware solution to help your electrical apparatus stay functional during unstable flow of electricity or blackouts. Our state of the art emergency power backup solution provides uninterruptible power to keep your businesses up, concurrent and functional 24 hours a day and 7 days in a week.
